

Production_Company_Analysis

Most Active Production Companies Across the Top 5 Genres

This chart compares the most 5 active production companies across the top 5 genres based on the number of movies produced.

Each bar represents a production company, while the coloured sections show how its movies are distributed across Action, Adventure, Comedy, Drama and Science Fiction from 2012 to 2016.

By comparing movie production experience with average profit, we can identify suitable production companies for future projects.

Top 5 Production Companies by Average Profit in Each Genre (2012–2016)

This chart compares the most active production companies across the top five genres based on the number of movies produced from 2012 to 2016. Each bar represents a production company, while the coloured sections show how its movies are distributed across Action, Adventure, Comedy, Drama and Science Fiction.
